Consent for Service/Billing Form

All tenant accounts require completion of a consent form in its <u>entirety</u> by the <u>Landowner</u>. The Landowner written consent is a prerequisite for the provision of water/sewer service to the tenant named in the lease agreement. Landowners may provide WCSA with an e-mail address so WCSA can provide you with information about the tenant's account, including a copy of the water/sewer bill and notice of delinquencies.
