¹WCSA uses a July-June fiscal year (FY). FY 2022 begins July 1st, 2021 and ends June 30th, 2022.

²Connection fees combine the formerly separate tap and system fees. All connection fees for "existing" residents connecting to line extension projects will be waived at no cost, provided the existing resident signs a 10-year commitment per addressed structure. If service is extended to a new development and includes installation of all infrastructure excluding the meter and reading unit, a voucher of \$750 (water) and \$640 (wastewater) will be provided that is redeemable during application for service.

³Fees for meters exceeding 6" will be based on actual tap costs.

⁴The wastewater connection fees shown are calculated assuming that 4" wastewater taps are used. If 6" wastewater taps are used, each wastewater connection fee would be \$150 more than the respective fee shown above. The fees do not include the cost of road crossings.

⁵For main connections only, in place of the standard connection fee. Charges for main taps 6" or greater are based on actual costs with a minimum of \$3,000.

⁶For waste streams exceeding 250 mg/L only.

⁷Transfer fees are assessed when a customer moves their account from one location to another. Reconnect fees are assessed when a customer reactivates their account (usually customers who live outside Washington County for part of the year).

⁸Processing fee for submitting outstanding debt that is more than 3 years old as part of the Virginia debt set-off program.

⁹Applies to customers with a deduct meter only.

¹⁰Covers the cost of reviewing engineering plans, or the cost of re-inspection (including fire flows).

¹¹This fee covers the cost of delivering potable water for outdoor uses such as irrigation, swimming pool water, etc.

¹²This fee covers the cost of emergency water delivery for indoor potable use.

¹³Covers the cost of temporary meter installation on construction sites, etc.

¹⁴Charges for meter testing will be credited to the customer if the meter is inaccurate.

¹⁵A late fee equal to 10% of monthly charges will be added to charges not paid by the billing due date.

¹⁶This fee is charged the day before service is disconnected due to non-payment, unless payment is received in the office by 4:30 pm the day before service is due to be disconnected.

¹⁷This fee is charged to customers who submit a payment that cannot be processed (e.g. bad check, returned ACH payment due to insufficient funds).

¹⁸This fee is only charged in addition to the Returned Payment fee if a certified letter is required.

¹⁹This fee is charged for tampering with meter readings, equivalent to theft of services. The fee includes a required trip to the meter.
